

decotric Isolating Spray

decotric Flecken-Decker Isolier-Spray

Quick-drying isolating spray for simply isolation of stains on ceilings and walls. For interior and exterior use.

Instructions for use:	<p><i>decotric Isolating Spray</i> isolates, by simple spraying, all stains, which might bleed through when painted over using dispersion-based paints and which cannot be permanently covered.</p> <p>Felt and marker pens, grease, nicotine, tar, soot and burn marks are covered and isolated and can no longer be released by subsequent coatings. <i>decotric Isolating Spray</i> is suitable for both interior and exterior use. <i>decotric Isolating Spray</i> may not be used on non-solvent resistant substrates (e.g. polystyrene).</p>
Technical information:	<p>Components: Alkyd resin, titanium dioxide, solvent</p> <p>Blowing agent: CFC-free</p>
Surface preparation:	The substrate must be dry and stable
Application:	<p>Shake container vigorously before use.</p> <p>Spray the area to be isolated briefly from a distance of about 20 cm. Repeat the spraying process after allowing to dry thoroughly (approx. 10 minutes) if required. The isolated stains can be painted with dispersion-based paints or papered over after allowing 10 minutes to dry.</p> <p>After use, invert the container and depress nozzle to clean.</p>
Important information:	Please see the EU Safety Data Sheet for all safety -related data (EU-CLP)
Storage:	Keep in a cool dry place. Keep away from sources of ignition!
Available size:	400 ml spray can 014502001
