

decotric STOP Algae, Moss and Fungus - Concentrate

decotric Algen-, Moos- und Schimmel-STOP Konzentrat

Free of active chlorine, therefore odourless – for use indoors

Instructions for use: Removes mould, algae and moss in interior areas – for example in sanitary installations. Cleans house walls, floors, roofs, garages, wood, tiles, clay tiles, stone, and concrete, etc. Can also be used as a cleaning surface pre-treatment for subsequent coats and facade impregnations.

Technical specifications:

Components:	Didecyl dimethyl ammonium chloride
Density:	1.00 g/cm ³
pH-value:	7-8
Usage:	100-200 ml/m ² of the thinned mix

Application: Dilute *decotric STOP Algae, Moss and Fungus Concentrate* with water in a ratio of 1:10. Apply the renovating solution using a brush or spray on using a suitable spray gun and leave to take effect. This occurs within 1 - 3 days. In case of severe contaminations, if no optical change appears in the treated surface, apply a further coat of *decotric STOP Algae, Moss and Fungus Concentrate*. Wash off any residues using clean water.

Important information:

Storage: Store in a cool but frost-free place! Keep the containers tightly sealed!

Available sizes:

1 l PE bottle	007602001
2.5 l PE canister	007601001
