

decotric Anti-Mould Paint

decotric Anti-Schimmel-Farbe E.L.F.

White, well covering, low-emission and solvent-free emission for indoor use, with protecting film against algae and fungus.

Instructions for use: *decotric Anti-Mould Paint* is an anti-mould paint suitable for all interior surfaces at risk from mould made from plaster, concrete, gypsum boards, emulsion paint coats, etc.

Technical specifications:

Components:	Styrene-acrylate dispersion, titanium dioxide, active fungicidal and algicidal substances
Density:	approx. 1.5 g/cm ³
pH-value:	8-9
Contrast ratio according to EN 13300:	Class 2 by 6 m ² /l
Wet Scrub resistance according to EN 13300:	Class 2
Usage:	150-200 ml/m ² per coat

Surface preparation: The surface must be dry, firm and free of release agents (dust, oil, mould, algae, etc.). Clean areas affected by mould, moss or algae using *decotric Algae and Mould STOP* and final cleaning using clear water. Prime highly absorbent, sanding and chalking surfaces with *decotric Deeply Penetrating Primer – Solvent Free* or *LH*. Fill and smooth cracks, holes and unevenness using *decofill Exterior* or *decomur Exterior Façade Filler*. Water-soluble contamination of the surface, which could show through when painted over with emulsion paint should be isolated using *decotric Insulating Spray*.

Application: Apply *decotric Anti-Mould Paint* using a paint roller, brush or an airless method. Two coats are required for optimum protection, whereby the first coat can be thinned with max. 10 % water, depending on the absorbency of the surface. After the first coat has dried the second coat should be applied unthinned.

decotric Anti-Mould Paint should not be mixed with other materials, such as dispersion- and full colour systems. *decotric Anti-Mould Paint* can be tinted using *decoMIX Universal Tinting Concentrates* (only LW-oxide types) max 0.2 % without reducing the anti-mould effect of the paint.

Clean tools with water immediately after use.
Do not use if the surface or rooms temperature is below + 5° Celsius!

Important information: Please see the EU Safety Data Sheet for all safety-related data (EU-CLP).

Storage: Store in a cool, but frost-free place! Keep container tightly closed!

Available sizes:
750 ml tin
2.5 l PE tub
5 l PE tub
