

# decotric Cement Film Remover

## decotric Zementschleier-Entferner

For removing lime and cement residues on tiles, clinker and terrace slabs.

<b>Instructions for use:</b>	<p><i>decotric Cement Film Remover</i> quickly and effortlessly removes lime and cement residues from acid-resistant tiles, clinker, terrace slabs, etc. Also ideally suited for removing limescale deposits in sanitary areas (e.g. on fittings and washbasins).</p> <p>Before use, check the resistance of the surface on a small test area, as it corrodes surfaces, which are not acid-resistant such as marble, cast stone, and similar.</p>	
<b>Technical specifications:</b>	Components:	Phosphoric acid and tensides (surfactants)
	Density:	approx. 1.13 g/cm <sup>3</sup>
	pH-value:	approx. 1
	Usage:	approx. 100 ml/m <sup>2</sup>
<b>Surface preparation:</b>	<p>Before use the product should be always tested on a small test area to check for compatibility, as non acid-resistant surfaces such as it corrodes marble, cast stone, etc.</p>	
<b>Application:</b>	<p>For lightly soiled surfaces thin <i>decotric Cement Film Remover</i> with water in a ratio of 1:10, for highly soiled surfaces with a ratio of 1:5 to max. 1:3, then apply to the areas to be cleaned and spread using a sponge. Leave to take effect for several minutes and then wash off thoroughly using water. For use in sanitary areas, thin <i>decotric Cement Film Remover</i> in a ratio of 1:5 to 1:10 with water.</p> <p>Clean tools thoroughly with water after use.</p>	
<b>Important information:</b>	<p>Please see the EU Safety Data Sheet for all safety-related data (EU-CLP).</p>	
<b>Storage:</b>	<p>Store in a cool place. Keep container tightly sealed.</p>	
<b>Available size:</b>	PE bottle with each 1 l	004801001
