

decotric Quick Filler decotric Schnellspachtel

Ready to use, white, quick drying paint filler for interior and exterior use..

Instructions for use:	<i>decotric Quick Filler</i> is excellent for pre-treating wood, metal and polyester substrates prior to painting. Suitable for interior and exterior use. <i>decotric Quick Filler</i> is particularly easy to use, offers good coverage, good filling and stands out for its very good sanding properties.	
Technical specification:	Components:	Synthetic resin, fillers, solvent, additives
	Colour:	White
	Density:	approx. 1.80 g/cm ³
	Drying time:	For synthetic resin and acrylic paints: 3-4 hours For 2 K and NC paints: 24 hours for a maximum wet layer thickness of 1 mm, at 20° C and 60% relative humidity
Application:	Apply <i>decotric Quick Filler</i> using a spatula or spreader and allow to dry. After drying, the filled areas can be easily sanded with a fine sandpaper to prepare for painting. Smooth filled areas can be painted directly (without priming). <i>decotric Quick Filler</i> can be repeatedly applied after allowing to dry completely. The temperature of the room or substrate should be between 15° and 30° C. Clean tools with <i>decotric Paint Brush Cleaner</i> or <i>Soluwash S</i> immediately after use.
