

Metallic Paint

Use:

Metallic Paint is a glaze on Acrylic basis for a modern brighter effect. Suitable for ceiling and wall coatings on wallpapers, colours, brick, masonry, finery, Styrofoam and similar surfaces.

Orient-Gold Metallic is also suitable for damp rooms as well as for outdoor use.

Properties:

- high covering power with a metallic effect
- very high opacity
- solvent free

Technical Data:

Raw material base: Polymer-dispersion, mineralic extenders, effect pigments, water, preservative and additives

Density: 1,10 – 1,20 g/cm³

pH – value: 7,5 – 9,5

Surface preparation:

The surface has to be dry, solid, free of dust and grease. Prime highly absorbent, sanding and chalking surfaces.

Application:

Shake well before use. Apply the Metallic Paint with a roller or an airless spraying device on large areas. Do not tint or thin the paint.

Note:

Under durable influence of moisture it can come to discolouration on painted surfaces. Mix different batches before application. Do not use if the surface and room temperature are below + 5 °C. Clean tools in water immediately after use.

Please consult safety data sheets für safety-relevant data. Up-to-date data sheets are available from our website at www.pufas.com/www.decotric.com.

Storage:

Store in a cool, but frost-free place. Keep containers tightly sealed. Keep out of reach of children.

Disposal:

Hand over only fully emptied containers for recycling. Dried material residue may be disposed of as domestic or construction site waste. Dispose of liquid waste under EWC waste code: 08 01 12.
