Roof and Plinth Paint

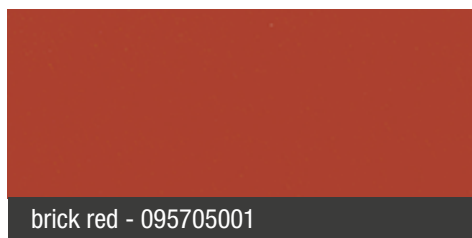

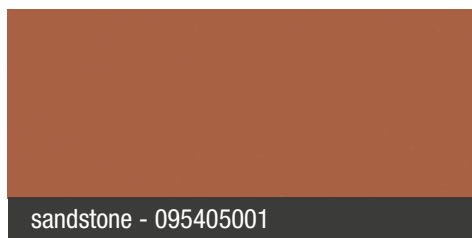

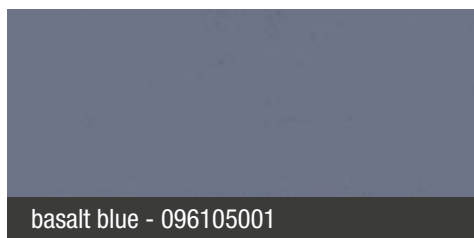

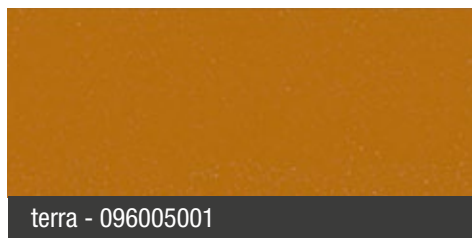

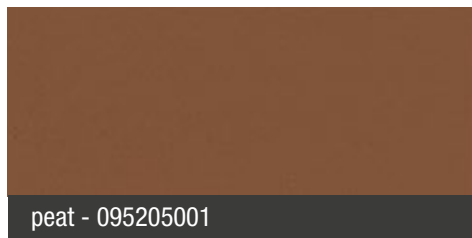

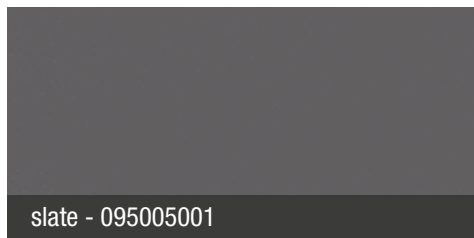

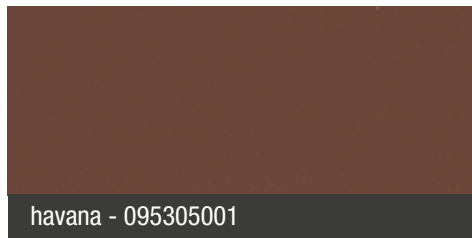

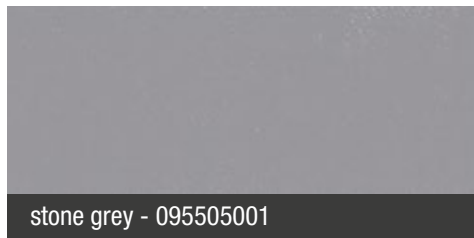

- long-lasting weather protection for clay roof tiles, fibre-cement roofing, render, concrete, masonry and existing coatings
- high opacity
- lightfast and UV-resistant
- scrub-resistant
- solvent-free, low-emission and breathable
- substrate texture retained
- matt finish
- water-thinnable
- can be mixed with other Roof and Plinth Paint colours and white facade paint
- 1 ltr suffices for approx. 6 m²

more
information:

Roof and Plinth Paint

Note:

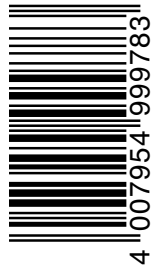

All colour samples in this brochure were reproduced by a print process. Slight variations in colour compared to the original colours are therefore unavoidable and shall not constitute grounds for any claims.

Depending on the tinted paint used and the nature, texture and suction of the substrate, slight colour deviations may arise. Trial application is thus recommended prior to use in order to verify that the formulated product exhibits the required colour.
