

decotric Mould Remover – chlorine-free

decotric Schimmel- Entferner chlorfrei

For fast and thorough removal of mould, bacteria and algae growth.

Instructions for use:

decotric chlorine-free mould remover, reliably and thoroughly removes mould, algae and bacteria. It can be used on all acid resistant substrates such as wall-papers, plaster, masonry, wood, ceramic, plastic and similar substrates. decotric chlorine-free mould remover has a neutral smell, which makes it especially suitable for living rooms and bedrooms.

Technical specifications:

Components:	aqueous sodium hypochlorite solution, tensides and additives
Density:	approx. 1.05 g/cm ³
pH-value:	approx. 2,5 – 3,5
Usage:	50-75 ml/m ²

Application:

Do not work on surfaces contaminated with mould in the dry state! Spray *decotric chlorine-free mould remover* onto the affected area from a distance of about 15 to 20 cm. After leaving for approx. 30 to 60 minutes to take effect, wipe over the treated surfaces with a damp cloth. If heavily contaminated repeat the procedure, leaving it to take effect overnight. After three days a follow-up treatment can be carried out using *decotric chlorine-free mould remover* in order to give the surfaces long-term protection from renewed mould attack.

Important information:

Please see the EU Safety Data Sheet for all safety-related data (EU-CLP).

Storage:

Store in a cool but frost-free place!
Protect containers from direct sunlight and heat.

Available size:

500 ml PE spray bottle 015502001
